## [Photos Link](#)

---

My main camera is a Sony a6000, though I don't use it as much anymore since it's a bit big to be taking with me all the time. I have two lenses, both Sony: the kit 16-50 PZ; and the 55-210.

At school I used Canon 1300Ds and as a child I used a HP Photosmart 435.

Most of the time nowadays I just use my phone (previously a [Sony Xperia Z5 Compact](#) and an [Apple iPhone 7](#), currently an [iPhone 12 Mini](#)).

---

Photos on my phone are edited with the Google Photos/Apple Photos editing tools and camera RAWs are edited with Darktable (sometimes Lightroom)
